

Paint Hangar

Dassault Falcon Jet

Wilmington, DE

The paint hangar facility is comprised of a state of the art, "dual flow balanced" downdraft paint hangar, a sand/strip hangar bay, and a cross-flow priming/striping bay. Centrally located within the 33,358 SF foot print is a two story support space including offices, storage rooms and a break room. The total square footage of the building is 37,928 SF.
